

To whomsoever it may concern

This letter confirms that I have mentored Mr. Abeer Karandikar for two separate projects. As part of a school research project organized by Mukangan Exploratory, Pune, Abeer worked on a project studying the behavior of dogs. I was his mentor for this project and this excellent project was entirely designed by Abeer (Dec. 2017 to Feb 2018).

Abeer also spent 2 ½ months in my lab as an intern (Apr 2019 to Jun 2019). This was entirely Abeer's initiative and he carried out a small research project examining place preferences in zebra finches. This project was also excellent.

Overall, Abeer is an excellent student and I am extremely happy to provide a very strong recommendation letter to support Abeer's application for undergraduate programs.

Please feel free to contact me (raghav@iiserpune.ac.in) if you need a recommendation letter or if you need any more information.

Yours sincerely,

(RAGHAV RAJAN, Ph.D.)
